

## **Multimedia Graphics & Animation – Assignment # 5 (Final)**

Your final project should showcase everything you have learned this semester, and will also serve as a useful “look what I can do” for prospective employers.

Create one of the following:

TV Show opening (sports, sitcom, reality, news, etc.)  
Movie Trailer  
TV commercial  
Music Video or Band promotional video  
PSA  
Explainer Video  
Short story

You are not limited to the assignment ideas listed. If you have something else in mind, present it for approval before working on it.

Length: 30 seconds – two minutes.

You can use any software available to you to create this project. However, to ensure you utilize After Effects as instructed, the project must contain at least 8 items from the following list:

1. Text
2. Photos
3. Video
4. Music
5. Use of a 3D camera and 3D layers
6. Use of Puppet Tool
7. Mask(s)
8. Particles
9. 3D Light(s)
10. Expression(s)
11. A keyframed effect from the Generate category
12. Motion tracking

To receive a final grade, your project must be handed in as an MP4 file on 12/13/18. In addition, I must be able to view your After Effects project file(s) used in this assignment.

### **Due Dates:**

- 11/15/18 – concept and rough storyboard**
- 11/29/18 – progress report/revised storyboard**
- 12/6/18 – rough cut due at end of class (so I can provide feedback)**
- 12/13/18 – final projects to be shown at 6:30PM**
